

DMMS IEC 62930:2017 Electric cables for photovoltaic systems with a voltage rating of 1,5 kV DC

Scope

This document applies to single-core cross-linked insulated power cables with cross-linked sheath. These cables are for use at the direct current (DC) side of photovoltaic systems, with a rated DC voltage up to 1,5 kV between conductors and between conductor and earth. This document includes halogen free low smoke cables and cables that can contain halogens
